## Creative Connections

We support people to achieve an individual, everyday life that is rich with relationships.

# Creative Connections

## WHO WE ARE

Since 1994, Creative Connections has been making meaningful and lasting connections for people with developmental disabilities. We work to help people achieve the life in community they want for themselves.

## HOW DO WE DO IT?

We provide people with the tools to get to know themselves and the resources in their community. We connect people to people and people to opportunities.

## WE BELIEVE THAT:

- > People build relationships based on trust, mutual respect and interests that recognize people's strengths and gifts
- > People can have less paid support in their lives when freely given relationships are fostered and supported in a thoughtful and responsible way
- > People, through everyday life, are able to attain the knowledge and experience needed to grow within and enrich their lives
