WHAT'S YES! ALL ABOUT?

YES! believes that all teens are created equal. We enhance the community's capacity to include people with developmental disabilities by using the role of employee as a means for people to identify positively with one another.

Part-time employment is a typical teen experience that helps develop a person's identity and capacity while contributing as a member of their society.

Part of a good life is participating in real meaningful work with growing expectations and competitive pay that occurs after school and on weekends.

When community opens its doors to people with disabilities, what can be achieved has yet to be discovered.

WHAT IS THE PROCESS?

Employment Coordinators seek out jobs for the teens with disabilities. Once a job is secured we match the teens with peers who provide on the job support for as long as necessary. This experience creates a mutual learning opportunity for both teens that may otherwise not take place. When this relationship does happen it is life changing for each of them.

HOW CAN I FIND MORE?

Contact the Youth Employment Source (YES!) at 829 2356 or the Progressive Alternatives Society of Calgary (PASC) office at 262 8515.
